Stuart is a resources sector specialist advising on project acquisitions and disposals, earn-in agreements, joint ventures, commodity sale and purchase agreements, procurement, transportation, infrastructure and construction contracts, royalty arrangements, project approvals and land access matters.

Stuart has extensive experience in Australia, Asia and North and South America.

Stuart was based in Beijing, China for a number of years as a partner in a leading international law firm.

Stuart's experience includes advising:

- Galaxy Resources on the acquisition and development of the Sal De Vida lithium brine project in Argentina, the Mt. Cattlin lithium project in Western Australia, the James Bay lithium project in Canada, and the sale of Galaxy's lithium carbonate plant in Jiangsu Province, China to Tianqi Group;
- Minjar Gold on the acquisition of the Pajingo Gold Mine in Queensland from Evolution Mining;
- Talisman Mining on the acquisition of the Sinclair Nickel Project in Western Australia from Glencore;
- Altura Mining on the development of the Mt Webber iron ore project with Atlas Iron, and its Pilgangoora lithium project in Western Australia;
- Silver Lake Resources on its farm-in and joint venture agreement with ACH Global relating to the Great Southern Project, including the subsequent acquisition of the project by ACH;
- Australian Mines on farm-in and joint venture arrangements with Riedel Resources and Jervois Mining;
- Rio Tinto Procurement during a year-long in-house role with the raw materials and logistics procurement team;
- OK Tedi Limited on heavy moving equipment procurement for the Ok Tedi mine in PNG; and
- Chevron Corporation on the Chuandongbei gas project with PetroChina in Sichuan Province, China.

Stuart is a current member of the WA State Committee of the Australian Resources & Energy Law Association (AMPLA) and the Mining Legislation Committee of the Association of Mining & Exploration Companies (AMEC).
